

THE PARTNER PROGRAM

Partner with AIA New Hampshire and build relationships, strengthen brand recognition and position your company in front of architects and designers through this comprehensive package of benefits.

MISSION: AIA NEW HAMPSHIRE'S MISSION IS TO ELEVATE THE PROFESSION OF ARCHITECTURE AND INSPIRE ARCHITECTS TO BUILD A BETTER NEW HAMPSHIRE WITH A VISION TO CREATE STRONGER, EQUITABLE AND SUSTAINABLE COMMUNITIES.

EXPOSURE

Being a partner is a cost-effective way to gain access to AIA New Hampshire members and help develop the key relationships needed for your company to maximize its potential in our increasingly competitive industry.

POSITIONING

Demonstrate your leadership in the areas that matter to your business and position your company as a thought-leader and source of trusted information. There is no better opportunity to differentiate your company from your competition to the people who can make a difference in your success.

RELATIONSHIP BUILDING

Each year, AIA New Hampshire produces a diverse calendar of educational programs, events and networking activities which offer unique opportunities to promote your business directly to the local architectural community and the large contingent of industry leaders that participate in these events.

PROGRAMS SUPPORTED BY CHAPTER PARTNERS

PRESIDENTS' DINNER

AIA New Hampshire's Presidents' Dinner will have its inaugural event in 2024. Bringing together past chapter presidents is an opportunity to recognize firm leadership across the state, as AIANH presidents are typically senior members of their firms. The Presidents' Dinner keeps this influential group connected to each other and to the chapter, allowing them to collectively assess the state of the profession and collaborate on initiatives that will positively impact the built environment. The sponsorship opportunity to underwrite this dinner puts the sponsors in the room where it happens. Exclusive benefit for Executive Chapter Partners.

ANNUAL DESIGN AWARDS PROGRAM

The Design Awards Gala, a marquis event in the chapter, is held each year to draw attention to buildings in New Hampshire that demonstrate design excellence. The gala draws the largest attendance of design practitioners and building industry experts from across New Hampshire and beyond for a festive occasion.

K-12 EDUCATIONAL PROGRAMS

AIA New Hampshire is committed to building the pipeline of design talent that will continue to staff current and future firms in the state. Two important programs are the current focus of the chapter's attention:

— THINK3D!

Think3D! teaches third through sixth grade students spatial reasoning skills critical to their success and perseverance in science, technology, engineering and math, all of which are foundational to the profession of architecture. Playful and engaging, the program inspires innovative thinking and problem solving through a sequence of engineering design challenges based in origami and paper engineering.

— ANNUAL HIGH SCHOOL DESIGN COMPETITION

Sometimes their first introduction to architecture, this competition is enjoyed by students across New Hampshire who compete in challenges that ask them to consider their communities and how the built environment can be a catalyst for sustainability and human interaction.

— COLLEGE SCHOLARSHIPS

Since 2009 AIA New Hampshire has offered over \$55,000 in scholarships to college students of architecture. Supporting those who have chosen architecture for their career is important to the mission of chapter.

EMERGING PROFESSIONALS

Through its Emerging Professionals Network, AIA New Hampshire nurtures early career architects to reach their potential. Specially tailored programs are offered to Emerging Professionals each year: building construction tours, study aids to prepare for the professional licensing exams and social events for peer networking are just some of the initiatives.

CHAPTER MEETINGS AND EDUCATION PROGRAMS

As a member of AIA New Hampshire, you will receive notices of our events and programs that happen throughout the year.

- Chapter Meetings are educational and social, a chance to see and learn something new and spend time with colleagues. They might feature a building tour or a presentation from a guest lecturer.
- Education Programs keep architects in the know about important topics that effect their practice. Members rely on the chapter to provide resources and opportunities to stay current on impactful issues and to accrue mandated continuing education credits for licensure maintenance.

AIA New Hampshire wants to help you reach the design community in New Hampshire with a variety of opportunities to enhance your exposure. Our annual partnership program offers you an effective way to strengthen your market position and target architecture and design clients through a strategic and repetitive approach offered at all levels of membership in AIA New Hampshire. We strive to ensure you receive the most value from your annual partnership. AIA New Hampshire architects spend millions per year on products and services; are responsible for pre-bid, bid-phase and post-bid projects; and specify, recommend and approve the purchase of products and services for their firms. Put your business in front of New Hampshire architects all year long with one of our annual partnership opportunities!

AS A PARTNER, WE CONSIDER YOU A MEMBER.

Affiliate membership is included as a benefit for all annual partners according to each partnership level. Affiliate membership provides additional opportunities to establish relationships with architects that go beyond sales and specifications.

BENEFITS OF AFFILIATE MEMBERSHIP INCLUDE:

- Opportunities to network with chapter members
- Invitations to chapter events with member pricing
- Subscription to AIA New Hampshire's e-newsletter and member communication
- Subscription to Forum, AIA New Hampshire's quarterly print publication
- Invitation to participate in chapter task-forces and committees
- Complementary posting on our online job board
- Company programs and events included in our e-newsletter
